

Cathy Nichols
South Portland

Dear Members of the Committee for State and Local Government:

Please vote to pass LD 1340 and keep our residents safe. Providing every detail about a crime is imperative in today's world. If a municipality creates ordinances that prevent important information, then they are enabling crime. The silent majority is thoroughly dis-heartened at the virtue signaling being done by our municipalities. We need our government officials to protect its people.

Thank you for considering my testimony.
