LD 877

I support LD 877 and preventing the State of Maine from contracting with Chinese companies.

Here are just a few examples of how China has recently demonstrated that they are threat to the safety & security of Maine and the United States:

- 1.) The invasion of U.S airspace with unmanned spy craft
- 2.) Lying to the World Health Organization (WHO), stating that COVID-19 was non-transmissible to humans in the beginning of the pandemic.
- 3.) Lying about the construction of artificial islands being used as military bases in the South China Sea
- 4.) Chinese telephone company "Huawei" committing corporate espionage on US soil.
