

Victoria Bucklin  
Appleton  
LD 2167

Senator Nangle, Representative Stover, and honorable members of the Committee on State and Local Government, I ask you to vote OUGHT NOT TO PASS on LD 2167.

An office of New Americans, along with Governor Mill's plan to resettle 75,000 foreign-born migrants to Maine would only encourage more illegal aliens to come here. It would cost millions, maybe even billions of taxpayers dollars. Mainers are already feeling the crunch with increasing food prices, increasing property taxes, increasing housing prices, to name just a few of the economic pressures on Maine citizens.

We clearly do not take care of the citizens we have. What would possess us to invite more to our state?

Are votes and power so addictive that you would compromise the education of our school children, the safety of the elderly, the employment of our young adults, and the well-being of those already on waiting lists for housing?

Please vote OUGHT NOT TO PASS on LD 2167

Thank you,
