

Mark Chasse
Auburn
LD 2167

LD 2167 OUGHT-NOT-TO-PASS as configured for several reasons.

-The department head should be an elected position and should not be able to make certain rules without going through the bill making legislative process.

- All new mainers should have to go through a vetting process I e. Criminal background check. I.e. Drug business's in Maine run by Chinese nationals members of the CCP sending billions of dollars back to China. If they fail these checks they should be sent back to their countries fir the safety of Maine citizens.

- All "New Mainers" should be medically vetted for exotic diseases and TB, AIDS and Hepatitis as these may impact other Mainers.

- All "New Mainers" should be required to get civics training and become citizens BEFORE they receive educational benefits and jobs.

Thank you.
