I urge you to withdraw your sponsorship LD2167.

Key points are listed below:

Crime will go up and rapes are happening in other states due to the border invasion and the law is soft on them by saying the non-citizens don't know what they can and can't do here in the USA.

The borders are wide open, anyone can claim asylum status and they come to Maine for protection from not being deported from any crime and it is a welfare state they get free food, housing, healthcare, etc.

As of January 2024, there are more non-citizens entering the United States annually than American citizens' birth rates. Asylum seekers are penetrating every aspect of American society. They are forcing cultural change, linguistic change, criminal enterprise change, social change, drug use change, medical change, educational change, religious change and, in the end, they are dismantling the cohesive cultural balance of American society.

Politicians who declare their jurisdictions to be sanctuaries for illegal immigrants who commit crimes are needlessly endangering their law-abiding citizens. In the midst of the Biden Border Crisis that is swamping state and localities with thousands of migrants, ONA offers illegal alien sanctuary politicians their own sanctuary; a place to hide and the illusion of a solution to a problem of their own making by letting them join a network of other like-minded politicians who provide affirming support. Local politicians then can punt the problem by telling voters, "we opened an office to deal with it."

Why are military age single males from various countries that hate the USA in the country? According to the former FBI officials, the surge in young male migrants crossing the unsecured border may represent a "soft invasion, designed to gain internal access to a country that cannot be invaded militarily in order to inflict catastrophic damage if and when enemies deem it necessary." Maine welcomes in all non-citizens knowing this can happen here.

Thank you for your consideration.
