

Heather Sprague
Cushing
LD 2167

To the distinguished members of the state and local committee, my name is Heather Sprague from Cushing, Maine and I oppose ld2167 an act to develop Maines economy and strengthen its workforce by establishing an office of New Americans because the eviction rate for Maine born citizens is high because they can't afford the high rent and are being thrown out into the street in the cold to be homeless while you house illegal immigrants and pay their rent for two years.

We can't afford to pay more taxes on another branch of governments run by non citizens of Maine.

Also most of Maines workforce were fired during covid and if you gave them their jobs back you wouldn't have a shortage.

This would put a greater burden on the already burdened citizens of Maine and it goes against the oath every member of this Legislature including Governor Janet Mills took when you were sworn into office by doing this.

This ought not pass.

Thank you for your time.
