

Thomas Chisholm
windham
LD 2101

I am strongly in favor of supporting the proposed legislation for the following reasons

- 1) Structures have been placed on our local roadway that is impairing emergency vehicles access to elderly and other at risk residents
- 2) Mitigating efforts by local residents have been met with hostility and resistance by one owner who constructed a wall
- 3) Despite credible sanctioning by the town of windham Code enforcement appears to have limited resources to pursue a remedy
- 4) Further nuisance behaviors persist with impunity on occasion with further encroachment on the roadway
- 5) A large amount of non indigenous land fill was used as fill behind te wall, risking unknown microbial and other invasive organic material into our lake
- 6) local residents do not have financial resources and other influence to address these violations in an equitable manner
