I support LD 387. This bill ought to Pass

This bill, once enacted into law, would bring Maine into compliance with federal law, 8 U.S. Code § 1324 - Bringing in and harboring certain illegal aliens.

It is Federal law Mills will be breaking if she makes Maine a sanctuary state. Maine should not

break federal law and risk federal funding for non-compliance.

It is a slap in the face for immigrants who have come here legally seeking a better life for their families. I know families of immigrants in my own town, who have come to this country legally and I've seen how difficult the process can be for families, and how deserving & grateful they are and how much pride they have contributing to our state becoming hard working, tax paying families who did things the right & legal way.

Mainers deserve that our Governor put Maine citizens first and not defy/break Federal law. Do the right thing by the people who call this state home.
