LD 542

Please support support LD 542 “An Act Regarding Municipal Property Tax Levy Limits.” I support it!

This bill establishes municipal property tax levy limits and allows for those limits to be exceeded only under certain specified circumstances.

Maine taxpayers have the highest property tax burden — and the fourth highest tax burden overall — when the amount owed to the government is taken as a percentage of residents’ personal income.”

This bill, when enacted into law, would help safeguard property owners from municipal governments who wish to increase our property tax burden to an unsustainable amount.

I strongly support LD542”, and it “ought to pass.”
