LD 1068

I URGE you to vote OUGHT TO PASS on LD1068, An Act to Allow the People to Elect the State Auditor. As all the LDs in this session, I wish you to give the people the right to elect their election officials and not to have them appointed by a bias Legislative process! It is for the voters to decide who is controlling the laws, elections, monies, and auditing in our government. You would not want to have your company run by a bunch of people who don't have your best interest at heart and no controls on their spending. Our state has been going down a very bad road in the last 7-8 years under a very bias spending agenda. My taxes have quadrupled! There seems to be no end to how they misspend our money. This needs to stop. We need to be able to elect fiscally responsible people with no partisan agendas. Who listen to their constituents, or they will not be reelected. These bills are necessary to bring the state back to the people as the Constitution proclaims! Thank you for voting OUGHT TO PASS on LD1068.
