

Lucy Breslin  
South Portland  
LD 1383

There is enough suffering in the world without Maine contributing financially to the horrors that we read about every day in too many areas. It would be wonderful if, as a Maine resident, I would be able to know that Maine's state pension fund is divesting in funds supporting companies complicit in genocide and/or human rights abuses. Please help to make this more than a dream. Please act to support LD1383.  
Thank you.
