

Donna Chale  
Brunswick  
LD 1383

As a retired Maine teacher and taxpayer I support LD1383. I do not want my retirement to fund corporations that contribute to harming people, especially those who are victims of genocide and bombing in other countries, or face deportation, local detention or family separation in this country. Given the actions of ICE I do not want corporations that transport their agents to Maine or elsewhere to be supported by our public investment.

This is a moral issue that affects all of us. Please pass this bill.
