LD 1383

I Support LD 1383.

With so much power being abused and misused on a federal level it is more important than ever to start using Maine's state power start to support people who's rights are being ignored and actively violated. This bill is a step in that direction. I hope that you will pass this bill and exercise the rights of a state to be a moral compass in the face of an amoral federal administration.

Thank you for your time,
