Is the legislature of my beloved Maine going to sink to antisemitism?  
This bill is written in thinly veiled language, just barely pretending, and not specifying Israel as the target of its venom. But we all know its aim.  
Ask Portland's Mayor Dion how he handled the BDS vote in Portland. He ultimately learned right from wrong. He apologized for having been persuaded by pressure from such Jew hating anti-Zionists who have their sights trained on Israel and its destruction.

My family's personal experience since October 7th has been having our Israeli flag spit upon, being harassed by Hamas supporters and getting berating phone calls.  
Passing this BDS bill will further embolden them.

Hamas baited Israel in the most horrific way. Then Israel reacted just like Hamas had planned. Then Hamas twisted the narrative, trying and often succeeding in poisoning the world view, purposefully blurring the clarity of what was really happening. The tiny (yet mighty) Israel said NO. We will defend our right to exist. We will not be erased "from the river to the sea".

This proposed bill is only one small step, and if my legislature passes it, the progressive, communist, Jew haters would celebrate with another notch in their belts.  
Please kill this bill.
