

Jessica Damico
Belfast
LD 1383

I'm unable to be there in person today because of work obligations, but this issue is deeply important to me. As a Maine taxpayer, I do not want even one penny of state funding to go toward the suffering of others, whether through human rights violations perpetrated by ICE and border patrol agents in the United States or genocide in Gaza and Sudan.

Please vote with your conscience so that Maine can further blaze a trail beyond its already proud distinction of limiting our police's cooperation with ICE via LD1971.

Thank you.
