

Jason Joyce

New England Fishermen's Stewardship Association, Swan's Island Maine
LD 2069

Dear Committee Members,

As an 8th generation Swan's Island commercial fishermen whose fishing community has experienced the tragedy of losing one of our own in the past, I am proud to support honoring the memories of those in our coastal communities who were lost at sea as described in LD 2069.

Remembering our tragedies of the past help to remind us of the fragility of life and encourage us to practice safety and situational awareness in an environment that can quickly claim a life in a moment.

Thank you
