LD 1383
January 21, 2026

Members of the Committee on State and Local Government,

I am writing in support of LD 1383 because I believe Maine should divest all public funds from entities that commit human rights abuses.

I've been a Mainer my whole life. To me, that means practicality, hard work, resilience, and most of all treating others well. I believe these Maine values should inform everything the state government does. The way we spend and invest our money is a direct reflection of our morals and values. Public funds, including pension funds for state employees, should never support genocide and violations of human rights.

Please vote Ought to Pass on LD 1383.

Thank you.
