

Erin Murphy  
Portland  
LD 1383

Without this bill the state makes all retired employees complicit in human rights abuses by holding stock in companies that are contributing directly to genocide and the detention of our neighbors. Investing in places like Boeing and Palantir who use AI and supply weapons of war. We need to standardize our investment practices in compliance with the international law. This is so important for Maine - let's be a leader on this.

My name is Erin Murphy, I live in Portland and teach in Waterville. The safety of my community is very important to me. What is happening with ICE at this very moment is an outrage and is a human rights abuse. I do not want the state that I love to invest in the systems that uphold these outrageous violations.
