LD 1383

I am writing to ask that the legislature approve LD 1383. I know that the current political climate makes declaring acts of genocide (and other human rights violations) incredibly charged, but I can imagine no compelling or credible reason not to enact this bill. It is both ethically imperative and fiscally responsible to not invest in perpetrators of human rights violations.

I was very proud of my state when, in 2021, the state divested from fossil fuels. I hope to see the legislature lead the country again by divesting from weapons manufacturers. Thank you.
