

Susan Shell  
Montville  
LD 1383

I am writing to express my support for LD 1383: An Act to Require State Divestment from Perpetrators of International Human Rights Violations.

If enacted, the bill would prohibit the Maine State Treasurer from investing in prime commercial paper or corporate bonds issued by any corporation or international government that contributes to genocide and human rights violations, including the manufacturing or supplying of weapons or development of inhumane detention facilities.

Maine currently has \$10 million invested in Boeing and \$141 million in the fund owning Signature Aviation.

I strongly urge you to support this legislation.

Sincerely,  
Susan Shell  
Montville, Maine
