

I am Judy Spiller, and I am testifying on behalf of the Kittery Town Council, of which I am chair, in strong support of LD 2214, An Act to Confirm and Finalize the Boundary Between the Town of Kittery and the Town of York. The York Select Board and the Kittery Town Council first began discussion about the disputed area of the boundary over six years ago. The disputed area dates back almost four years before either town was incorporated. The resolution

After a 2022 lawsuit brought by York against Kittery 2024 was dismissed, the Council and Select Board agreed to a survey of metes and bounds which essentially reaffirmed the boundary in force for over 100 years with Kittery gaining approximately four acres of undevelopable land. Transfer of this land to Kittery will have no impact of on taxes or residents. The 13 homes potentially affected by this dispute remain in their respective towns. The boundary that will be codified by this legislation satisfies both communities and their residents.

The Kittery Town Council thanks Senator Lawrence for drafting this legislation and Kittery Representatives Mathisson and Meyer as well York Representatives Runte and Sargent for their support.
