

Maggy Wolf
Portland
LD 860

My name is Maggy Wolf and I strongly support LD 860 to identify corridors from Portland to Bangor, including connecting inland communities by rail service. I already enjoy taking the Downeaster from Portland to Boston but would love to take it to other Maine cities. We need to open up more parts of the state to rail service, and to study where rail service would remove cars from roads, and where it would open access to more Maine cities.
