I write you in support of LD 209.

In SO many ways, this is the right decision! Here we have a tremendous asset that connects rural communities with high density metropolitan areas. With the advent of E bikes, this provides an amazing opportunity for safe recreation, a commuting corridor, exploration of the out-of-doors, and use of an community asset that sits idle.

Please work quickly and with purpose to make this a reality for the State of Maine, its residents and its visitors!
