I am a Standish resident who lives very close to the old railroad here in Richville. I walk as much as I can and bike too. Route 114 is a high speed road that terrifies me to walk/ bike on. I have driven to Fryeburg and Scarborough etc and love the trails they have.

I am all for a trail (no rails) for safe walking and biking. What a wonderful addition that would be for residents and tourists alike.

Thank you for your consideration in this matter. I understand there is a meeting in Hiram tonight about this.

Sincerely,
Mary Bowe
