

Nancy Clift  
Standish  
LD 1450

My name is Nancy Clift, I live in Steep Falls (Standish), I am writing in support of LD 404 to allow the Mountain Division corridor to become a trail & LD 1450 to help fund the building of the trail. The best use for the state-owned Mountain Division corridor is a wide paved trail for walkers, bikers, and runners, accessible to people of all ages and abilities. This trail extension will connect to the highly used Mountain Division rail-trail that already exists in Gorham and Windham. I already use and enjoy the current Mountain Division trail for bicycling, walking, and skiing. Access to the trail in Steep Falls will provide an area for recreation for myself and others away from fast moving traffic on the busy roads near my home.

Thank you,  
Nancy Clift
