

Teresa Egan
Brownfield
LD 404

I am writing in support of the passage of LD404. I feel that replacing the rails on the Mountain Division line with a pedestrian/bikeway is the most exciting transformation of that unused asset. It will be a rewarding addition to our town of Brownfield that currently does not have any safe space for bike riding, and will have the added benefit of being a shot in the arm for our economy. Please vote in support of LD404.
