I use the Mountain Division Trail at least twice a week if not more all seasons. I enjoy seeing all the different wild flowers, daisy's, Lady slippers, black eye Susans to name a few. Also I've seen a variety of wild life, snapping turtles, turkeys, skunks, deer , once in awhile moose and coyote.

Of course many many types of birds.

Made many casual friends, dog walkers like myself, runners, bikers. Its a whole community stretching 3 towns. I've walked to Westbrook a couple times on. This trail. So beautiful along the river!! I fully appreciate the trail and extending it is only a big boon the other communities.
