I urge you to implement the recommendations of the Mountain Division Advisory Council! Maine needs many more bicycle and walking trails and this corridor is already complete in several key areas. Connecting Standish to Fryeburg and eventually Portland to Fryeburg is a low cost way to encourage positive outdoor recreation and will undoubtedly open the towns along the route to low impact tourism and the dollars that go along with it. It's the right thing to do for the future of Maine Citizens. I look forward to businesses such as bike rentals, cafes, restaurants, camp grounds and many others in Western Maine benefitting from this smart initiative.

Thank you.
Sincerely,
Mark Kenny
