

Wayne Porter
North Windham
LD 404

I am a 28 year Navy veteran who recently finally moved to my house in Windham to enjoy my camp in Casco. I remotely teach Special Forces officers, so I am physical fitness enthusiast. I have enjoyed hiking, in-line skating, and cross country skiing the Mountain Division Trail between The Windham Fire House and the end of the paved trail in Standish since I arrived back in Maine over a year ago. It has been absolutely essential for both my physical and mental wellbeing. We need MORE of it. My wife and I have already observed the various sections all the way to the ocean. Extending the trail from Standish to Fryeberg would be an essential addition and would help so many others enjoy this incredible resource.
