

Isaiah Walker
Standish
LD 404

Hello, my name is Isaiah Walker I've lived in Standish the majority of my life, I spent my teenage years walking the otter ponds, and the non gated railroad tracks. I even ran the mountain division trails a time or two! I think expanding it and making it in a location where it's safe for everyone including teenagers who are walking alone or with friends! As one of new business owners at walkers landing I understand the importance of keeping our town clean and the Portland water clean as well! But it would be awesome if the mountain division could expand along the unused tracks!
