

Emma Bond
Portland
LD 511

I live in Portland and urge the Transportation Committee to vote in support of LD 511. An interim trail would benefit the public by providing a safe and beautiful transportation option--to walk, bike, or use a wheelchair on a flat surface, without fear of being hit by a car. I live near the Berlin Subdivision corridor and would use the trail to travel on foot and by bike to errands on Route 1 in Falmouth and the Portland peninsula. Please put this important public resource to good use and vote "ought to pass."
