LD 511

I live in Portland. Please vote "ought to pass" on LD 511. An interim trail from Portland to Auburn would improve public health, protect the environment, connect to public transit, and provide options for people who don't drive, or simply want to drive less.

I commute by bicycle as much as possible, and this trail would allow me to commute further off-road and would have economic benefits in the communities it will pass through. Offroad trails are documented to spur small businesses to set up, and people unite to make their town a "Trail Town", or a more favorable and welcoming place for people to stop, visit, spend money or stay.

Thank you for your support!
