

Debra Coyman
Falmouth
LD 511

I live in Falmouth, and as an avid cyclist for recreation and transportation, I urge the Transportation Committee to vote to support LD 511. An interim trail from Portland to Auburn would improve public health and quality of life, connect communities along the way, protect the environment and provide greater safety for cyclists, pedestrians and other non-motorized transportation users. Trails around the country have demonstrated economic benefits to the communities they traverse. Please vote "ought to pass".
