

Karen Drew
Gray
LD 511

Born and raised in Maine, I have lived in Gray for the past 25 years, and I urge the Transportation Committee to vote in support of LD 511. I strongly believe in the benefit of connecting with the outdoors for both physical and mental wellbeing. The interim trail from Portland to Auburn would allow so many people to reap the benefits of such a multi use trail system...from walking, to jogging, to even biking to work. This trail would help improve the future health & wellbeing of our residents as well as our beautiful state. Please vote "ought to pass."
