LD 29

My name is Jacob Farmer, from Belgrade, ME and am writing in support of LD 29. As someone who currently utilizes the River Trail from Augusta to Gardiner, I find this trail great for physical and mental fitness and a great way to travel from town to town without being on a major roadway. I am a proponent of extending this from Gardiner to Topsham in order to expand the length of travel and ability to commute even further along the river trail. Thank you for your time, please vote "Ought to Pass" on LD 29!
