Testimony for Bill 511

My name is Barbara Guffin and I live in Freeport and chair the Complete Streets Committee. I feel that Maine citizens need more opportunities to bike and walk in Maine. I urge the Transportation Committee to vote in favor of this interim trail from Portland to Auburn as this trail would improve public health (through cleaner air and more exercise), reduce auto miles driven, provide accessible options for people who do not drive and help many folks connect to public transportation.
Thank you for supporting this bill.
