LD 511

I live in South Portland, and I urge the Transportation Committee to vote in support of LD 511.

There are few trails which are accessible and car restricted as well as connect communities in the state. Adding another one will help build this infrastructure, which will drive tourism (we're known for outdoors activities in Maine), provide opportunities for people with disabilities, and also create a fantastic place to take children.

An interim trail from Portland to Auburn would improve public health, protect the environment, connect to public transit, and provide options for people who don't drive, or simply want to drive less.

Please vote "ought to pass".
