

Brian Pelletier
Yarmouth
LD 511

I live in Yarmouth, and I urge the Transportation Committee to vote in support of LD 511. An interim trail from Portland to Auburn would improve public health and recreational opportunities, improve public transit by connecting homes and communities along the path, and provide options for people who don't drive, or simply want to drive less. The path will take cars off the road, improving both traffic flow and the environment. Please vote "ought to pass."
