Hello, I live in the East Deering section of Portland and would love to be able to use a multi-use trail if the Casco Bay trail were to be created. Right now, I have to drive to trailheads to exercise my dog. I can't take him on the bus. It would be great if I could eliminate the use of my car to get out to a trail.

With the Roux Institute coming to our neighborhood, the proposed Casco Bay trail might also cut down on the anticipated increase in traffic.
