

Julia Trotman  
Portland  
LD 511

Hello! I have lived in Portland for over 25 years, and steadfastly urge the Transportation Committee to vote in support of LD 511. An interim trail from Portland to Auburn would get more of us outside, improve public health, reduce emissions and pollution from vehicles, protect the environment, connect to public transit, and provide more transportation options for people. Please vote "ought to pass." Many thanks, Julia
