

Donald Martin  
Kennebunk  
LD 154

Hello, my name is Donald Martin, I live in Kennebunk, and I am writing to oppose LD 154. More specifically, the subsection regarding rail preservation. It is imperative that the state consult economic planning entities before removing any previously laid track. Removing state owned corridors must take into consideration those impacted by the removal of rails. Consulting economic planning entities is a vital step to ensure removing these lines would not negatively impact these region. Furthermore, sidestepping this procedure will only harm the integrity of this process as a whole.

Thank you for taking the time to read my testimony, and I urge the committee to vote "Ought Not to Pass" on LD 154.
