

Michael BOYSON
portland
LD 1020

Senator angle , Representative Crafts and Honorable members of the Joint Standing committee on Transportation;

I am Mike Boyson, I was born in Bangor, live in Portland and I have lived in Maine exclusively since 1972. I strongly oppose the building of the (so called) "Connector" and I staunchly support LD1020. The MTA has lost a great deal of credibility with public over the process of bringing this connector project to the citizens of Maine. The voters in affected towns have said they don't want this project, costs have doubled in the life span of this proposal and the MTA has shown themselves incapable of facing reality in this case. Please support LD1020
