

Isaac Blasi  
RI  
LD 676

Dear committee members,

I hope you are having a great day today. I writing this letter to ask you to vote “ought not to pass” on LD676. The railroad creates transportation and also creates jobs for the community. By taking away the railroad, you are taking away the history of the railroad, and also taking away the future of the railroad. I am 11 years old and I love the railroad. Someday I hope to drive the trains that run along those tracks. I think a lot of people love this railroad. I think it should stay. I think the Conway scenic railroad and freight trains should run along these tracks. Thank you for your time. I hope you have a great rest of your day.

Please vote “ought not to pass” on LD676.

Thank you
