

Terry Lochhead
Brownfield
LD 676

Senator Nangle, Representative Crafts, and Honorable Members of the Joint Standing Committee on Transportation:

I am in favor of LD 676 and I urge you to vote Ought To Pass.

The bill would not incur any significant expense for the State but merely allow federal funds to be accepted for the development of the Mountain Division rail trail between Fryeburg and Standish. This trail could assist my town, Brownfield, by enhancing the economic development opportunities available to us. We are small and rural but have much to offer those passing on a rail trail. Please help us take this critical first step. Thank you!
