LD 1457

Dear Transportation Committee Members,

I am urging you to support the passage of LD1457.

Excessive speed on our highways has seemingly become the norm and it is horrifying to watch traffic ignore the speed limits in work zones. I cannot imagine what it must be like for those individuals who work on the highway construction zones. They must fear for their lives every day. Automated speed control systems may be the only way to induce people to obey the speed limits and surely will help mitigate the gaps in speed limit law enforcement that have arisen from staffing shortages.

This pilot program is timely and we must move forward with it. Lives depend on changing the driving habits of the masses. Please vote "ought to pass" on LD1457.

Thank you.
