

Jeffrey Ellison
Swans Island
LD 1231

I am a resident of Swans island. My name is Jeffrey Ellison. I am 76 years old and we have two disabled children one with Sarah policy. We moved to the island for the knowing that we would be safe to have emergency transportation to the mainland, we really can't live by having that being taken away. We also feel that the house that we built value would diminish tremendously by not having emergency service to the island. This is a life death situation and I can't understand why anyone would change what has been working for decades.
