

Pacita Joyce
Swan's Island
LD 1231

Dear Committee,

I am an 84 year old year round resident of Swan's Island. In the last several years my late husband relied heavily on the ferry for planned medical appointments and 2 life threatening health event emergency trips. He would not have been able to live his last years at home as a 7th generation Islander if the ferry had been moved ashore and unavailable for emergencies. It brings worry to me knowing the ferry may be taken away from us overnight and at my age to be reliant on a small boat to get older folks like me to the mainland in a medical emergency at night. Please support LD1231 and keep our ferries on the islands. Thank you.
