

John Engler  
Lewiston

Dear Esteemed Members of the VLA Committee:

My name is John Engler, and I am the owner of High Sail Cannabis, a medical cannabis caregiving service based in Auburn.

I would like to testify today IN FAVOR of LD 421. This Act would support Caregivers and Patients by increasing the amount of cannabis that can be grown and sold in the Legal Medical market, thereby increasing tax revenues collected by the State, and permitting Caregivers to increase their revenues, which will be important for them to stay profitable as the cost of compliance increases over time.

I am neither FOR nor AGAINST LD 301 and LD 353.
