

William Mansfield
Reds Meds Ne

These new bills would help my caregiver services expand and employ more locals. We already employ a few people but are looking to continue to expand and grow. We are trying to do what ever we can to be on the same playing field as the larger corporation who have almost ended supplies. This would allow for our first commercial facility to be maximized. We are trying to do as much for our community and the more funds we can generate the more money we can put back into our community.
