

Izzi Mickunas
BRUNSWICK

This bill costs no money to create but will increase tax revenue. It allows greater access to patients at a more cost effective rate, allows growers more predicability in supply to scale up, which would allow us to avoid last Summer's shortage, which did not serve the med program or our patients. Maine's reciprocity is wonderful but allows for unpredictable spikes of sales in the summer we need to be prepared for. Maine is very well known for our incredible craft cannabis and this program deserves the expansion so that the most skilled growers product can have further reach
